

**WHEN YOU PUT THE
GOOD STUFF IN...LIFE,
HEALTH & ENERGY
SHOW UP, LIKE WHAT
HAPPENED TO ME...**

By Bill Froehlich

BILL FROEHLICH

BEFORE MY DISCOVERY

I was depressed, low energy, and endured leg pain

AFTER MY DISCOVERY

A lot more energy, excited about the future and, my leg pain is gone!

SINCE MY DISCOVERY

- I am excited about life again and the possibilities
- Started walking again, riding my bicycle wearing clothes that have not fit in a while
- Decided that I would like to help others that may have Health Challenges
- Made new friends that have overcome Health Challenges just like myself

THE CHALLENGE

One in Four Deaths From Coronary Heart Disease. Why?

On June 23, 2017, In Rapid City, SD. I had a near-death experience with what was supposed to be a simple Heart Catheterization, (That's What They Told Me) but it turned deadly.

Yes, an artery collapsed during my Cath Test and I had a major Heart Attack! Somehow, during all that commotion, they managed to put "7 Stents" around my Heart area.

I had no idea I had Heart Disease. I am angry because I could have most likely prevented this incident. Doctors saved my life but I should have been doing things for my own good health but I had pretty much thought in my own mind that I was 'OK.'

Heart disease kills 1 in 4 people for many reasons. There is an old saying "What doesn't kill you makes you stronger." I don't agree, I think what tries to kill you makes you angry and sad. You want answers you want to find out how to prevent this again.

What I learned (Just in Time) is, we all need good Nutrition to stay healthy, happy and grow old. There was hope but...

I faced depression, severe leg pain, no energy, and the medications started to take a toll on my body. It was awful.

I tried everything to get off medications and get healthy...some things worked, most did not. It was very discouraging...

Then I discovered that a lot of the reason for my health issues was that my (ATP) "Energy & Health Currency of the Body." had been depleted over time.

(ATP) is depleted with age and stress.

The Doctors Called Me The 'Miracle Man'

THE SOLUTION

Restore Your (ATP) naturally with no side effects

Researchers at the Mayo Clinic have found that (ATP) can be at a 50% loss by the time a person reaches the age of 70. That is why it is so important to replace it so one can stay healthy.

When I saw the results folks were having by restoring their (ATP) I was amazed. I wanted to try it for myself and soon I started experiencing the same results.

The whole idea of restoring my Health helped me become more conscious of what I ate, and most importantly, of how I FELT after my Health was restored. Good Nutrition Works!

The best part was the energy I felt, in addition, to not be depressed each morning, or suffering all night with leg pain. My life truly did change.

THE RESULTS

A Lot More Energy, Better Health and Off 10 Medications

Can you see yourself avoiding major health issues, enjoying life and having a ton of energy? When your body gets the proper nutrition, especially if you replenish your (ATP) a lot of good things happen.

I am excited about all the New Opportunities that have been presented to me, and I want to share it with the world. I have too, it's just too important to keep to myself.

I will probably never lose all my fear of having a Heart Attack. But with learning how to take care of myself through good Nutrition, I feel much more confident that it won't happen again. I would love for you to have the same feeling in your life.
